

HOW TO PREPARE FOR A FLEA TREATMENT

BEFORE TREATMENT

- Have pets treated, oral application is suggested.*
- Wash and dry all bedding in high heat, including pet bedding. Seal in plastic bags during treatment.*
- Clear the floor, including closet floors, of any stray items*
- Put away or cover any items that people or pets may put into their mouths, such as toys and dishes.*

DURING TREATMENT

- All people and pets must be out of the home for at least 4 hours.*

AFTER TREATMENT

- Vacuum all carpets and floor coverings every day, twice a day is preferred if possible. Make sure to empty the vacuum canister/throw away the bag every time, as far from the home as possible.*
- Do not shampoo carpets or mop floors for at least two weeks.*
- Schedule a respray in two weeks if there is still flea activity.*
